## Magical Arms & Armor

### QUICKSILVER LONGSWORD

*Weapon (Longsword), uncommon (requires attunement)*

The bearer may use a bonus action to change the form of the weapon to any other simple or martial melee weapon. It always counts as a silvered weapon no matter what form it takes.

### TITHING MACE

*Weapon (Mace), uncommon (requires attunement)*

The bearer may lay 10 gold coins along the surface of the weapon and pray to a God of their choice for 10 minutes. At the end of this ritual, the weapon becomes a +1 weapon until the next long rest and the 10 gold coins are permanently gone. This boon will be lost if the bearer acts in a way that is contradictory to that deity's teachings.

### DEFENSIVE CLEAVER

*Weapon (Handaxe), uncommon (requires attunement)*

Whenever the bearer takes a dodge or disengage action, they may move an additional 5 feet that round.

## NOT MADE TO ORDER

Flinar becomes agitated and uncomfortable when asked to craft specific pieces. He instead prefers to only sell what he has already created.
